This Form 99 Submission is in response to the Commission's letter dated 6/26/2013 regarding the Committee's February Monthly. The Committee incorrectly used the 2012 election cycle's fixed ratio of 64% for the non-federal share of the disbursements disclosed for the February monthly report. The current fixed ratio for the 2014 cycle is 79% for the non-federal share of allocable expenditures. The Committee does not intend to amend this report and will accept the allocation ratio as reported in the February monthly. The Committee does not intend to recoup the differential in non-federal allocations and did not exceed the allowable amount to transfer in to its non-federal account with the amounts reported in the February Monthly. The Committee has used the correct fixed ratio for the 2014 cycle in all subsequent reports that have been filed.
